Infrared telecommander

Battery

Charger

General information:

The AGP-100 electronic crane scale has been designed to be hung up from the hook of the overhead travelling crane, arm crane, crane vehicle, tower crane, etc. from where it is going to work. It is an appropriate device for the control of entering and leaving of a product, control of storage, checking of the stock, etc.

The AGP-100 has different options, like the incorporation of an infrared telecommander, 24h battery service, protection for works in foundries with high temperatures, RS-232-C output, RS-485 output, indicator of maximum peak, etc.

Characteristics:

Digits: 5 LCD 1" (option LED 1")
 Work temperature: -20°C +60°C
 Functions: On/Off, Zero, Tare, Sum, Total and Erase (through telecommander)
 Protection: IP 55 (optional IP 65)
 Feeding: 8.4V DC
 Accuracy: +/- 0,1%

Capacity (kg)	Step (kg)	Dimensions (mm)				Total weight (kg)	
		L1	L2	L3	L4	Sin acc.	Con acc.
500	0,2	134	244	504	379	3,5	5,2
1000	0,5	134	244	549	399	3,5	6,2
2000	1	134	244	549	399	3,5	6,2
3200	1	146	336	706	526	4,5	8,2
5000	2	160	350	720	540	5,9	10,5
6300	2	160	350	720	594	5,9	16,5
10000	5	174	449	949	724	7,2	24
